1932 Apr' 7. F.N.384- Bondhold Rentals of Scriven, 1673 – 74 & 1676 – 77.

Spring 1926. Authorities: F.N. 409- "Collections to prove Knares. Field....",1610.

1933 Sept. 6. F.N.430- "Extenta" of Scriven, 1302.

1932 April 7. Folio Note – 384- Bondhold Rentals of Scriven 1673 – 74: 1676-77.

Two separate Rentals are included in this note, which was first finished 19 May 1926. The amounts are sometimes difficult to make out, owing to the curious way in which they are recorded; but it is obvious that the two lists are very similar.

1933 Sept. 6.

Before these Rentals can be put to good use, they need to be compared and corrected, so that the exact amounts may be ascertained, For this purpose it will be well to mark the first one(1673-4) A, and the second one (1676-77) B. The second one may then be drawn up in a tabular form, it being the clearer statement, while the first is used for comparison.

A few trial calculations show that the rent of an acre of land was one shilling, except in the case of the furland, where the rent was fourpence an acre. The rent of a whole messuage was 7½d. (cf. F>N.409: F.N.430). The accounts are complicated by the division of holdings, by some faulty descriptions revealed by comparison, but most of all by the cumbrous method of entering up the figures.

Tabular Statement of B, the Rental for 1676-7
