Item Description FIELD

Site Data

This field consists of improved grassland and is used as pasture. It slopes steadily downwards from N to S and there is evidence of Ridge and Furrow running in that direction. There are plough headlands at N and S boundaries. At the eastern side, centrally disposed about the boundary, is Undefined Feature 60940150 which could be a large circular building platform which crosses into Field 60940005 immediately to the east. Revisit recommended to investigate building platform.

History Summary

The field has remained unchanged from the mid 19th century until the present time, early 21st century.
