### Site Data

This feature is a well standing in the SW corner of Field 60940010 which is the front garden of Highfield, Ripley Road. The well has been capped with two very large slabs of sandstone which are mortered in place. They are used as a stand for a beehive. The landowner informed us that as far as they know the well is still extant under the slabs but has never been inspected in the twentyfive years that they have been in residence.

### History Summary

The well is shown on maps from the early 20th century until the mid century although visible on aerial photos of the 1950's and 1970's.
